

what's on **Biggar**

Save the Date

There are over 60 organisations using What's On Biggar to promote local events.

When you plan an event:

Check out the What's On Biggar calendar to see what else is happening around the same date.

Add a simple event to let people know your plans - a title & a date is all that is needed. More information can be added later.

Information about future events is really helpful to other organisers.
